our Limited Edition.

DOLFINOS

One of our newly developed
and patented chin rests.

This is the world's first complete violin rest system made in Switzerland.

The DOLFINOS chin and shoulder rest system is the result of our user innovation starting in 2013 at the Zurich Universities. From the beginning, the aim of our development has been centered around the musicians and their needs.

Highlights of the DOLFINOS violin rest system.

Ergonomically manufactured chin rest, made of European FSC wood.

Non-invasive attachment to the instrument.

Lockable ball joint for exact adaptation to individual body shape.

Precisely adjustable shoulder rest.

Exactly positionable support surfaces with selectable padding.

“It’s really amazing how one can notice such a big difference within playing the first few notes.”

- Prof. Ana Chumachenco, University of Music and Performing Arts Munich

Highlights of the DOLFINOS violin rest system.

Height-adjustable chin rest.

A variety of chin rest versions are available to fit your personal and professional needs.

No disturbing rods, no nickel-plated metal parts on the neck.

“Click and Go,” simple and safe assembly and disassembly of the shoulder support.

Non-slip micro lamellas made of skin-friendly material.

Highlights of the Airbus Special Edition.

Medtech proof ABS chin rest material. One additional wooden chin rest.

Personalized color and branding options, (e.g. your name or dedicated to...)

The supporting structure has an elongation limit more than twice as high as the standard aircraft alloy version.

20 % lighter than the standard version.

A set of four cushions with two different softness properties.

”I was able to enter new dimensions of the performance and astonishingly practice longer without getting tired.“

- Laura-Maria Waldauf, student at the Mozarteum University Salzburg
