

DOLFINOS System

Release

The chin + shoulder rest MADE IN SWITZERLAND

This flyer informs you about the product, the benefits and how to register for your First Series.

This is the world's first complete violin and viola rest system made in Switzerland.

The DOLFINOS chin and shoulder rest system is the result of our user innovation starting in 2013 at the Zurich Universities. From the beginning, the aim of our development has been centered around the musicians and their needs.

Highlights of the DOLFINOS Rest System.

Ergonomically manufactured chin rest, made of European FSC wood.

Non-invasive attachment to the instrument.

Lockable ball joint for exact adaptation to individual body shape.

Precisely adjustable shoulder rest.

Exactly positionable support surfaces with selectable cushions.

“It’s really amazing how one can notice such a big difference within playing the first few notes.”

- Prof. Ana Chumachenco, University of Music and Performing Arts Munich

Highlights of the DOLFINOS Rest System.

Height-adjustable chin rest.

A variety of chin rest versions are available to fit your personal and professional needs.

No disturbing rods, no nickel-plated metal parts on the neck.

“Click and Go,” simple and safe mount and dismount of the shoulder rest.

Non-slip Micro-lamellas made of skin-friendly material prevents the shoulder rest from slipping.

Highlights of the Air Edition.

Medtech proof ABS chin rest and one additional wooden chin rest.

Personalised color and branding options, e.g. your name or dedicated to...

The weight-bearing structure is made of Scalmalloy®, developed by Airbus Industries. It has an elongation limit more than twice as high as the standard aircraft alloy version.

20 % lighter than the standard version.

A set of four cushions with two different softness grades.

”I was able to enter new dimensions of the performance and astonishingly practice longer without getting tired.“

- Laura-Maria Waldauf, student at the Mozarteum University Salzburg
